

Dr. Ron Teramoto
Ho'ōla Physician Partner in Aiea, HI

Dr. Ron Teramoto is a dedicated physician passionate about internal medicine. Ron's journey in education began at Kalani High School, and later, he pursued his undergraduate studies at the University of California, Los Angeles, earning a Bachelor of Science in Kinesiology in September 1983. His dedication to medicine led him back to Hawaii, to the University of Hawaii John A. Burns School of Medicine, where he obtained his Doctor of Medicine degree.

Ron, a self-proclaimed lover of learning, served as a Laboratory Assistant in the Department of Infectious Disease at UCLA under the guidance of Dr. Michael Lovett. After returning to Hawaii, Ron was a substitute teacher. His passion for sports and mentorship led him to serve as an Assistant Coach for Kalani High School's Varsity Football team.

Following his medical studies, Dr. Teramoto completed his residency training in Internal Medicine through the University of Hawaii Integrated Medical Residency Program, graduating in 1991. He then embarked on a medical journey in service to the State of Hawaii.

Since July 1992, Dr. Teramoto has maintained a thriving private practice in Internal Medicine in Aiea, Hawaii. Over the years, he has demonstrated a steadfast commitment to providing high-quality healthcare to his patients, earning him respect and admiration within the medical community and among his patients.

When he is not in the office, Dr. Teramoto can be found on the green, golfing with fellow physicians and supporting the University of Hawaii's football team.

“I enjoyed many years of independent practice, but over time, the challenges of running a business and keeping up with changes in medicine became overwhelming. Joining Ho'ōla has been a game-changer. I can focus on what I love—caring for my patients—without the stress of managing the business side. Ho'ōla not only supports my practice but also offers great value that I couldn't find elsewhere. It's truly a win-win situation. Ho'ōla has revitalized my career and strengthened my commitment to patient care.”
